

Fezz (Fezzy) Kendrix

July 21, 2009 - April 11, 2022

You will be in my thoughts every single day. I miss having my little shadow following me from room to room, following me from the time I walked in the door till the time we went to bed and even pouting in the mornings when I left for work. I miss pulling up in the driveway and seeing your little head in the window waiting for me to get home and yet still managing to beat me to the door. I miss you snuggling up to me as we would sleep. I even miss stepping on all the dog treats and even finding them in my jacket pockets where you had hidden them. Your sudden passing is hard for me to accept but I'm grateful for the 14 years that we got to spend together. I have never viewed you as "just a pet" as you were part of our family. I probably spoiled you a little too much but I never could give you as much as gave me. Thanks for all the unconditional love and always being by my side. I hope you and big brother Bennie reunite and someday and some-how we all will see each other again. Rest in Peace my sweet boy. July 2009-April 2022.
